

I can not overstate the value in what an efficient, credible, and knowledgeable Medicare and Medicaid billing agency can provide for your company.

In the healthcare business it is critical to maintain consistent timeliness, collections, attention to detail, precise billing, and effective communication in billing out services to Medicare and Medicaid.

Flaming Enterprises, Ltd has not only assisted our business in capturing Medicare/Medicaid reimbursements in a timely manner; but they have also improved our billing system and increased our overall cost reimbursements this year. Their attention to detail and expertise in this area have exceeded my expectations.

The team at Flaming Enterprises, Ltd are extremely professional, competent, responsive, creative, and delivered a service that was unbeatable both in cost effectiveness and product.

In the past year, I have received numerous calls from my colleagues inquiring who I was using for my Medicare/Medicaid billing services, as they found it unbelievable how quickly they were able to bill out our end of month charges and receive rapid reimbursement with little or no denial in claims.

I would certainly recommend Flaming Enterprises, Ltd services to any of my colleagues and thank Flaming Enterprises, Ltd for providing such a needed service to our industry at such an amazingly affordable price.

Warmest Regards,

Yvonne Potter
